TSP Awarded UK Gas Supplier Servicing & Maintenance Contract.

SGN

Your gas. Our network.

Award Notice.

We are pleased to announce that TSP have been awarded a contract with national UK gas Supplier, SGN. The collaboration; which includes c50 sites located across Scotland, South England and Northern Ireland; will see TSP play a crucial role in delivering planned preventative maintenance services across SGN's office, depot and gas sties to assist SGN in the effective management of their gas pipe infrastructure.

The awarding of the contract follows a thorough evaluation of TSP's capabilities in the Utilities Sector. Through a competitive tender process, we showcased:

- Our ability to effectively manage the Service and Maintenance; both reactive and planned maintenance; of SGN's Infrastructure which covers all SGN sites throughout the UK
- Our adherence and knowledge of compliance standards for CNI (now known as NPSA National Protective Security Authority) standards.
- The skills, knowledge and extensive training of our Engineers for current installed and future implemented equipment

The successful award of this contract and ongoing relationship with SGN adds a significant milestone to TSP's expanding portfolio of Utility clients, serving as a testament to our proven proficiency within the Utilities Industry.

At TSP we understand that the Utility sector's security challenges are complex and demanding. We are dedicated to delivering bespoke security solutions that not only meet regulatory standards but also exceed expectations. Collaborating closely with clients, TSP establishes strong partnerships to enhance the safety, resilience and efficiency of the Utility sector. This way, we help our clients in the Utility sector stay ahead of emerging risks, ensuring the continuity, security and safety of their operations, while maintaining compliance with all relevant regulations.
